STYLE & CREATIVITY

Jewel Stone is the ultimate in acrylic modified cement-based coatings that transforms everyday concrete into beautiful decorative faux stone finishes. Jewel Stone can be used to restore and beautify old deteriorating concrete. It is ideal for walk ways, terraces, patios, pool areas, or any industrial or recreational flooring that requires the look and performance of stone. The luxurious and classic beauty of hand laid stone, slate, flag-stone, fieldstone, tile or wood plank in any combination of colours can be achieved with Jewel Stone at a very affordable price.
