

HARLOW

CURATED LINE OF METALLIC FINISHES

From our family to yours

DuROCK Harlow Finishes are premixed, water-based, 100% acrylic coatings available in a variety of colours. Harlow finishes are flexible, breathable, water-repelling, dirt pick-up resistant (DPR), ultra-violet resistant finishes consisting of granulated quartz or marble, metallic pigments, resin and other additives specially formulated for both exterior and interior use. DuROCK Harlow Finishes are ideally suited for both new and/or retrofit construction. DuROCK Harlow Finishes provide a high yield per single coat making them the most cost effective metallic finishes in the industry.
