GoBRICK

CLASSIC LOOK. MODERN EFFICIENCY.

GoBrick is a new innovative acrylic finish for exterior insulation and finish systems. A simply spectacular look - GoBrick provides an uncanny resemblance to real brick with many added benefits:

- Inexpensively emulates labor-intensive masonry
- Reduces structural demands for exterior façade
- Ready supply of most popular designs
- Ability to match most existing patterns and textures
- Ability to create and shape deeper grout lines
- Will not trap moisture vapour
- Greater flexibility for crack resistance and longer life
- Adds natural texture and color to multiple surfaces
- Resistant to dirt and the growth of mold and mildew
